

IN PERSON WORSHIP PRACTICES AT ST. JOHN

Anticipated return to in person worship is September 6th, 10am.

These practices will enable St. John and guests to worship as safely as possible during this pandemic.

If you feel sick, if you are uncomfortable with crowds, or if you don't feel ready for in person worship, please stay home. Hopefully some kind of on-line worship can be maintained for those at home.

--Use of facial masks/coverings will be required inside the church (masks will be provided for any who needs one) and use of hand sanitizer (will be provided) / hand washing is recommended.

--Safe distancing (6 feet apart) will be practiced and every other pew will be vacant.

--No visiting will be done inside the church before or after worship; visiting can be done outside.

--No personal contact such as hand shaking, hugging, fist/elbow bumps, or toe touching will practiced inside the church.

--There will be no congregant food, snack, or meals at this time but no decision has been made about Friday Feasts and Oktoberfest.

--Due to disinfecting concerns (our facility will need to be disinfected before and after worship), some rooms will be closed such as cry room, classrooms, fellowship hall (?), and the nursery (?).

--Worship will be different as changes may be made to order of service, congregational singing, communion distribution, offering, sharing of the peace, or other aspects of worship as needed.

These practices may be adapted or changed as necessary and others may be added as needed. We'll keep you informed of any changes or additions.

Thank you for your co-operation for making St. John's in person worship as safe as possible.
